

HELPFUL TIPS:

Reducing Static Cling: Pin a small metal safety pin to the seam of your skirt or slacks and—voila—static is gone.

Foggy Windshield: Keep a chalkboard eraser in the glove box of your car—works better than a cloth.

No More Mosquitoes: Place a dryer sheet in your pocket. It will keep the mosquitoes away.

Broken Glass: Use a dry cotton ball to pick up broken glass—the fibers catch the little ones you can't see.

Reopening Envelopes: Forget something? Just put the sealed envelope in the freezer for an hour or two. It will unseal easily.

.com news**... by Jeremy Farrell**

We are working on putting all the latest Wells Gazette on the family web site at <http://www.wellsgazette.com>. The site has been designed in order to better facilitate the Wells Family in sharing day to day life and family history. The site currently offers the ability for the users to communicate and share information through the bulletin board, where you can enter information and have others reply. There is also a space for anyone who would like to keep a Blog, which is essentially an online diary. This would be an excellent source of family history for future generations.

We are also working on the family calendar feature which will be available so you can add important family dates, such as birthdays, anniversaries, gatherings, and the dates of those who have already passed. The genealogy portion of the site is near completion and will be ready to use soon. This section will be open for each family to start building a unified family tree, so we can all share the same information. These details will be kept private and within the family. I would like to also offer the chance to have your family pictures displayed here on the site as well. If you have some images that need some work to be repaired then please email a scan of them to me and I will work on repairing the image, so we don't lose a valuable part of the family history. If you need anymore help here just call me at home (801) 424 8303, Jeremy. AND I could use some help with the site. There's a lot to do and we would especially like all the different family lines to be represented.
